IKOP (614589-A) SDN. BHD.

INDUSTRIAL TRAINING AWARDING CERTIFICATE OF MANUFACTURING ASSISTANT

BACKGROUND

Pharmaceutical industry is a well-regulated industry. It is a major source of pharmaceutical products supplying various types of medicines to the public. This industry is required to be operated by following stringent Good Manufacturing Practice in order for the medicines to be manufactured, registered and commercialised. Having a well-trained manufacturing assistant is an added advantage to this industry complimenting its aggressive nature.

OBJECTIVES

1. To expose the trainee to the fundamental aspects of Good Manufacturing Practice (GMP) of pharmaceutical industry.
2. To train the trainee on manufacturing and In-Process Quality Control (IPQC) of pharmaceutical dosage forms abiding Good Manufacturing Practice (GMP).

ENTRY REQUIREMENT

DIPLOMA level of any science-based and not limited to mechanical, chemical and pharmaceutical engineering.

MAXIMUM NO. OF PARTICIPANTS PER INTAKE & DURATION OF TRAINING

Seven (7) participants per intake. Intake is on middle of April, June, August, October, December. Duration per intake is 40 days.

CONTACT INFORMATION

Assoc. Prof. Dr. Farahidah Mohamed, Acting CEO, IKOP Sdn. Bhd. (Pilot Plant Manufacturing of Pharmaceutical, Kulliyyah of Pharmacy, International Islamic University, 25200 kuantan).

IKOP (614589-A) **SDN. BHD.**

Activities	Materials	Equipments	Trainer's Fees	Student's allowance
1. 5 hr lectures on : a. Personnel and material flow in a pharmaceutical industry b. Introduction to GMP c. Fundamental aspects of Standard Operating Procedure for manufacturing & IPQC test d. Basic information on SOPs of manufacturing equipment e. Basic information on IPQC equipments and testing **2. Dispensing of raw materials** **3. Manufacturing & IPQC test of solid dosage forms (tablet/capsule)** 4. **Manufacturing & IPQC test of semi-solid or liquid for external use.**	**Training materials=** 1. 5 hrs Lectures notes = RM250 2. Assessment post-lectures = RM250 3. Hands-on training modules = RM300 **Raw materials =** 1. For manufacturing of solid dosage forms = RM500 2. For manufacturing of semisolid = RM400	1. For solid line equipment = RM800 (4 weeks) 2. For Semisolid equipment= RM400 (2 weeks)	**5 hrs lectures + assessment time =** RM 150 x 5 hrs = 750 **Hands-on instructions and briefings =** 1. For solid line = RM200 (4 weeks) 2. For semisolid line = RM100 (2 weeks)	RM10/day = 10 x 40days = RM400
Sub-total fees per pax	RM1,700	RM1,200	RM 1,050	RM400
GRAND TOTAL FEES/pax	**RM 4,350**
